

**IBM Tivoli® Endpoint Manager**  
*built on BigFix technology*

**Got 15 minutes?**  
**Take a Coffee Break with IBM featuring**  
**Tivoli Endpoint Manager, *built on BigFix Technology***

Spend just 15 minutes listening to an IBM Tivoli webcast from the comfort of your own workstation and cross another infrastructure management challenge off your “to do” list.

Does your organization struggle with discovering, managing and protecting your distributed endpoints including workstations, roaming laptops and special purpose devices like kiosks, POS and ATMs? Tivoli Endpoint Manager offers innovative technology that delivers real-time visibility and control for networks that range from hundreds to hundreds of thousands of endpoint devices, including some of the largest, most complicated networks in the world!

**Why Customers Choose Tivoli Endpoint Manager *built on BigFix Technology*?**

- Real-time visibility; a single agent sees all, does all
- Unprecedented scalability; one server for up to 250K endpoints
- Broad coverage; multi-platform, multi-purpose, on-network, off-network
- Rapid time-to-value; installs in hours, fully deploys in days; remediates in minutes

**Tivoli Endpoint Manager** has built-in intelligence that identifies which devices are not in compliance with policies and implements security fixes, configuration changes and software updates for hundreds of thousands of machines in a matter of minutes.

**Tivoli Endpoint Manager** provides a single source of pervasive real-time asset visibility, enabling your organization to achieve continuous situational awareness into your computing assets located anywhere - fixed or mobile, physical or virtual, including their current state and all the dynamic changes they may be experiencing.

**Intrigued?**

**Take 15 minutes to learn more about Tivoli Endpoint Manager *built on BigFix technology* and why it is a must have for those seeking to streamline processes, reduce infrastructure costs and increase workforce productivity**

**When:** Thursday, March 24 - 8:30 am Pacific; 10:30am Central
